SUBJECT: 1985 Program--Supplemental Support Package Review

Preston,

Per your request and in support of the 1985 Program, the OL/Plans and Programs Staff has revisited and reviewed the methodologies and rationale utilized in arriving at the OL portion of the DDA 1984 Program/Supplemental Support Package. We believe, with the exception of adjustments for inflation, this same rationale supports the 1985 program. Accordingly, we recommend the 1984 proposal be amended to incorporate inflationary factors and be incorporated into the 1985 Program without other changes.
